1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which pupils with disabilities can participate in the curriculum
- Improve the physical environment of the school to enable pupils with disabilities to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to pupils with disabilities

Our school treats all pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind. The Flying High Academy is a mainstream primary school, which supports a wide range of needs, including pupils with special educational needs and those who have a specific medical need or disability. 'Relentless in excellence, united in heart' underpins everything that we do and, alongside our principle of 'Care', pupils are supported to achieve the best that they can in and beyond the classroom.

Staff know the children, their background, their needs, achievements, social contexts, individual journey and this enables a personalised approach to learning stretching beyond the classroom. Inclusion at The Flying High Academy is always a priority and bespoke provision is planned for and provided to ensure that the needs of all our children are met in line with the principles outlined in our SEND policy.

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-pupils with disabilities. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

3. Action plan

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.

Access to the curriculum

Our aims are to:

- Increase access to the curriculum for pupils with a disability
- Improve and maintain access to the physical environment
- Improve the delivery of written information to pupils
